

COVID-19 GYMS

BIG Exhibits prepares for the future and offers you solutions to help fight the coronavirus and keep your community safe. We created different smart designs and interesting 3D models for modular solutions during and after this crisis.

With our designs we give gyms a boost! With our modular frames, we can create perfectly enclosed spaces to allow your members to workout in peace, but above all corona proof.

Get in touch with us and let's find solutions to get your Gym back in action.
